

Fiber Laser Cutting Machine

LASER CUTTING MACHINES

DNE LASER

D-SOLAR

Fiber Laser Cutting Machine

- Laser output of 12KW for fast cutting
- Stable performance reduces waste and boosts capacity
- Hydraulic table enhances layout efficiency
- DNE Power CAM software is user-friendly
- Complies with European safety standards

DNE LASER

D-SOAR

Fiber Laser Cutting Machine

- Economical and durable laser cutting solution
- Accurate temperature and humidity control for stable production
- Professional optical fiber laser control software supporting various graphic formats
- Manufactured according to European machine tool technology standards

D-SOAR PLUS

Fiber Laser Cutting Machine

D-ENERGY

Fiber laser cutting machine

DNE LASER

- Suitable for cutting various metal types.
- Offers high cutting quality, precision, speed, and efficiency.
- Economical with low investment and operating costs.
- Customized cutting software available.
- Supports multiple graphic formats.
- Simplifies operations for faster and easier cutting.
- User-friendly for inexperienced operators.
- Ensures stable and safe cutting process.

- Process various sheet metals efficiently and cost-effectively.
- Customized operating system for easy and flexible operation.
- Reliable intelligent bus system for modular automation.
- High-speed cross beam with dual-axis motor drive for accuracy and stability.
- Precise temperature and humidity control for stable laser operation.
- Complies with European machine tool technology standards.

D-WIN

Fiber Laser Tube Cutting Machine

- Available in 2, 3, and 4 chuck configurations for different tube shapes and profiles.
- Processes various materials like carbon steel, stainless steel, and aluminum alloy.
- Features fully automatic centering chuck for stable clamping.
- Includes automatic blanking and tail material processing.
- Offers optional auto loading and semi-auto loading systems.
- Provides low operation cost and quick ROI.

Compny Profile

short view

SMART TECH INDUSTRY is a leading provider specializing in industrial solutions, offering a wide range of cutting-edge offerings in machine tools, metal processing, sheet metal fabrication, CAD/CAM software, and other advanced industrial equipment.

Our mission is to deliver high-quality turnkey technological solutions, with a focus on precise process selection, technological innovation, equipment reliability, and top-notch pre- and post-sales customer service.

SMARTTECH INDUSTRY

Explore our showroom to discover our latest innovations and cutting-edge metal transformation technologies at SMART TECH INDUSTRY. Designed to offer an immersive experience, our showroom allows you to witness our advanced machines in action and engage in insightful discussions with our team of experts. Pay us a visit and immerse yourself in the world of Smart Tech Industry, where quality solutions and technological excellence converge to meet your industrial needs.
