

# Laser Welding Solutions

laser welding machines

# Laser Welding

- Fast speed, high efficiency, designed for welding thin steel and precision parts;
- Highly automated, easy to operate, saving labor costs;
- The heat-affected zone is small, and the weld seam is beautiful and smooth;
- Suitable for many metals, such as carbon steel, stainless steel, aluminum, etc.

**High Quality:** Welds are of exceptional quality, with smooth seams that eliminate the need for subsequent rectification.

**Low Cost:** Reduce labor costs by requiring at least two fewer welders. Additionally, this machine is designed to save energy, offering savings of 80% to 90%.

**Flexible Operation:** The machine offers 360-degree flexible movement, allowing optimal access to welding areas. Even novice welders can produce high-quality results.

**Multi-function:** With six different welding modes, including wired and cordless, this machine is suitable for a variety of applications. In addition, it can also function as a cutter for thin steel.

**Multiple Languages:** The machine supports multiple languages, making it a global solution for customers worldwide.
